UNQUALIFIED OPINION ON GENERAL-PURPOSE FINANCIAL STATEMENTS-GOVERNMENTAL ENTITY

INDEPENDENT AUDITOR'S REPORT

Board of Commissioners

Cameron Parish Gravity Drainage District No. 9

I have audited the accompanying general-purpose financial statements of the Cameron Parish Gravity Drainage District No. 9 as of and for the year ended December 31, 2000, as listed in the table of contents. These general-purpose financial statements are the responsibility of the Cameron Parish Gravity Drainage District No. 9's management. My responsibility is to express an opinion on these general-purpose financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the general-purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the general-purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall general-purpose financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In my opinion, the general-purpose financial statements referred to above present fairly, in all material respects, the financial position of the Cameron Parish Gravity Drainage District No. 9 as of and for the year ended December 31, 2000, and the results of its operations for the year then ended in conformity with generally accepted accounting principles.

In accordance with *Government Auditing Standards*, I have also issued a report dated June 15, 2001, on my consideration of the Cameron Parish Gravity Drainage District No. 9's internal control over financial reporting and my tests of its compliance with certain provisions of laws, regulations, contracts and grants.

The accompanying financial information listed as additional information in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements of the Cameron Parish Gravity Drainage District No. 9. Such information has been subjected to the auditing procedures applied in the audit of the general purpose financial statements and, in my opinion, is fairly stated, in all material respects, in relation to the general purpose financial statements taken as a whole.

REPORT ON COMPLIANCE AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Commissioners

Cameron Parish Gravity Drainage District No. 9

I have audited the financial statements of the Cameron Parish Gravity Drainage District No. 9 as of and for the year ended December 31, 2000, and have issued my report thereon dated June 15, 2001. I conducted my audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the Cameron Parish Gravity Drainage District No. 9's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit and, accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing my audit, I considered the Cameron Parish Gravity Drainage District No. 9's internal control over financial reporting in order to determine my auditing procedures for the purpose of expressing my opinion on the financial statements and not to provided assurance on the internal control over financial reporting. My consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. I noted no matters involving the internal control over financial reporting and its operation that I consider to be material weaknesses.

This report is intended solely for the information and use of management, others within the organization, the Cameron Parish Gravity Drainage District No. 9, and the Louisiana Legislative Auditor. However, this report is a matter of public record and its distribution is not limited.

NOTES TO FINANCIAL STATEMENTS
December 31, 2000

NOTE 1--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Cameron Parish Police Jury is a political subdivision of the State of Louisiana. Cameron Parish Police Jury is the reporting entity for Cameron Parish as defined by NCGA Statement 3, (Defining the Governmental Reporting Entity).

In April of 1984, the Financial Accounting Foundation established the Governmental Accounting Standards Board (GASB) to promulgate generally accepted accounting principles and reporting standards with respect to activities and transaction of state and local governments. In November of 1984, the GASB issued a codification of governmental accounting and financial reporting standards. This codification is recognized as generally accepted accounting principles for state and local governments.

Cameron Parish Gravity Drainage District No. 9 (the District) is a component unit of Cameron Parish Police Jury as defined by GASB codification Section 2100. The District was created by the Cameron Parish Police Jury as authorized by Louisiana Revised Statute 38:1751. The District is governed by a board of five commissioners appointed by Cameron Parish Police Jury and is authorized to construct, maintain and improve the system of drainage within the District.

A. FUND ACCOUNTING

The accounts of the Cameron Parish Gravity Drainage District No. 9 are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures. Revenues are accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The funds presented in the financial statements are described as follows:

General Fund

The General Fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund.

B. CASH AND CASH EQUIVALENTS

Cash includes amounts in petty cash, demand deposits, interest bearing demand deposits, and money market accounts. Cash equivalents include amounts in time deposits with maturities of three months or less. Under state law, the district may deposit funds in demand deposits, interest bearing demand deposits, money market accounts, and time deposits with state banks organized under Louisiana law and national banks having their principal offices in Louisiana, or United States bonds, treasury bills and notes, or certificates.

C. ACCOUNTS RECEIVABLE WRITE-OFF METHOD

The District has adopted a write off policy wherein any account that is deemed uncollectible is written off directly when the account's collection efforts have been deemed unsuccessful.

D. FIXED ASSETS

Fixed assets used in governmental fund type operations (general fixed assets) are accounted for in the General Fixed Assets Account Group, and are recorded as expenditures in the governmental fund types when purchased. Public domain or infrastructures are not capitalized. No depreciation has been provided on general fixed assets. All fixed assets are stated at historical cost. Donated fixed assets are stated at their estimated fair market value on the date donated.

The fixed asset account group is not a "fund". It is concerned only with the measurement of financial position not with measurement of results of operations.

E. BASIS OF ACCOUNTING

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

Revenues

Ad valorem taxes and the related State Revenue Sharing (which is based on population and homesteads in the parish) are recorded in the year the taxes are assessed.

Federal and State grants are recorded when the district is entitled to the funds.

Interest income on investments is recorded when the investments have matured and the income is available.

Expenditures

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred. An exception to this general rule is principal and interest on long-term debt is recognized when due.

F. BUDGETARY PRACTICES

The Cameron Parish Gravity Drainage District No. 9 adopted a budget for the year ended December 31, 2000 and revised it once during the fiscal year.
